

196A-05014-ABC

air-cooled motor / generator with 12 kW continuous power

This datasheet refers to art.no.: see page 2

PRELIMINARY

Please send a request mail: sales@engiro.de

KEY FEATURES

- permanent magnet synchronous machine
- air-cooled
- high peak power for motor applications
- convincing cost-benefit ratio
- recommended voltage range from 48 V to 200 V
- delivery with controller possible
